This includes ensuring that students are monitored and supported throughout their apprenticeship/traineeship pathway. The Resource explains the terms and technicalities that surround SBATs, details the particular responsibility of schools and their staff, describes the roles of other relevant agencies and provides useful information and resources for teachers.

This workshop aims to provide participants with practical and relevant tools to support students undertaking SBATs within their school. Representatives from two Australian Apprenticeship Centres (AAC) have been invited to provide their perspectives on engaging with schools and employers.
